关于金砖 About BRICS

- 金砖（BRICS）是巴西、俄罗斯、印度、中国、南非五国英文首字母组成的缩写词。
- BRICS is an acronym composed of the initial letters of the English names of five countries: Brazil, Russia, India, China and South Africa.
- 自2009年第一届金砖国家领导人峰会以来，金砖国家在经贸、科技、文化、教育、卫生、智库、友城等数十个领域开展务实合作的多层次架构，成为促进世界经济增长、完善全球治理的建设性力量。
- Since the first BRICS Summit in 2009, the BRICS countries have developed a multi-level structure of practical cooperation in dozens of areas, including economy & trade, science & technology, culture, education, health, think tanks, friendship cities, etc., and have become a constructive force in promoting world economic growth and improving global governance.

关于金砖 About BRICS

里程碑 Milestones

里程碑 Milestones

- 根据《金砖国家特殊经济区合作框架》，特殊经济区(Special Economic Zone, 缩写SEZ)是指享受特殊待遇或优惠政策的区域，包括特殊经济区、自由经济区、自由港、自由贸易区、工业区、工业园区、科技园区等。特殊经济区的领域和涵盖范围按成员国国内法律法规确定。
- *The Framework for Cooperation on BRICS Special Economic Zones:* Special economic zones(SEZs), including free economic zones, free ports, free trade zones, industrial parks, high-tech parks, and other forms, play an important role in trade and investment cooperation.

特殊经济区在中国 Special Economic Zones in China

- 特殊经济区作为改革开放的“试验田”、科技创新与产业创新的“主阵地”和促进地区经济社会发展的“发动机”，其价值在全球范围内得到广泛验证。
- Special Economic Zones have proven their value worldwide as testing grounds for reform and opening-up, as main hubs for tech and industrial innovation, and engines for regional economic and social development.

特殊经济区在中国 Special Economic Zones in China

- 中国也是特殊经济区政策的积极实践者，在过去四十多年里，中国进行了深入的探索，从1980年8月26日设立深圳、珠海、汕头、厦门首批经济特区到1984年设立第一个国家级经济技术开发区，从1988年批准成立北京市高新技术产业开发试验区到1990年设立第一个海关特殊监管区域——上海外高桥保税区。2013年以来，中国政府先后部署设立上海、广东、辽宁、海南、山东、北京、新疆等22个自贸试验区，形成了覆盖东西南北中的改革开放创新格局。
- China also has been actively exploring SEZ policy for over 40 years. From establishing the first batch of Special Economic Zones in Shenzhen, Zhuhai, Shantou and Xiamen in 1980, to launching the first national Economic and Technological Development Zone in 1984; from approving the Beijing High-Tech Industrial Development Trial Zone in 1988, to setting up the China' s first special customs supervision zone - Shanghai Waigaoqiao Free Trade Zone- in 1990. Since 2013, China has established 22 Pilot Free Trade Zones in places like Shanghai, Guangdong, Hainan and Beijing, creating a nationwide network for reform, opening-up and innovation.

特殊经济区在中国 Special Economic Zones in China

- 目前，中国国家级经济技术开发区已有232家，2024年创造的地区生产总值达16.9万亿元人民币；贡献的进出口额和实际使用外资额接近全国四分之一，区内各类经营主体超490万家。与全国一样，国家级经济技术开发区已成为浙江对外开放的排头兵，贡献了约50%的进出口额、60%的实际使用外资。
- Today, China has 232 national ETDZs. In 2024, their regional GDP reached 16.9 trillion CNY. They contributed nearly a quarter of the country's total imports, exports and actual FDI, hosting over 4.9 million market entities. In Zhejiang, these zones are similarly at the forefront of opening-up, accounting for half of the province's foreign trade and 60% of its FDI.

特殊经济区在中国 Special Economic Zones in China

- 在中国，除了国家级经济技术开发区之外，还有综合保税区等特殊区域在中国对外开放中作出了积极贡献，这些海关特殊监管区在一些国家被称为自由区。2024年，全国特殊区域实现进出口值8.37万亿元，同比增长4.6%，占全国外贸总值的19.1%。截至目前，中国共有特殊区域174个，其中综合保税区168个，覆盖全国31个省区市，这些区域不仅是外贸增长极，也在引进外资、扩大就业、培育新业态等方面发挥重要作用。中国的综合保税区也从传统的保税物流、保税加工，走向保税维修、研发检测、跨境电商、融资租赁等新业态，区内功能不断丰富，正在从单一的“政策高地”向多元化的“开放生态系统”演进。
- Beyond the state-level ETDZ, China has also established special areas such as Comprehensive Bonded Zones that have made notable contributions to the country's opening-up. These customs-supervised special areas are referred to as "free zones" in some countries. In 2024, the nation's special areas recorded RMB 8.37 trillion in import and export value, up 4.6 % year-on-year and accounting for 19.1 % of China's total foreign-trade volume. To date, China is home to 174 special areas—168 of them Comprehensive Bonded Zones—covering all 31 provincial-level regions. They serve not only as growth engines for foreign trade but also play a vital role in attracting foreign investment, expanding employment, and nurturing new business models. Chinese Comprehensive Bonded Zones have evolved from traditional bonded logistics and processing to embrace after-sales maintenance, R&D and testing, cross-border e-commerce, financial leasing, and other new formats. As their functions continue to diversify, they are shifting from single "policy highlands" to multi-dimensional "open ecosystems."

里程碑 Milestones
